INTELLIGENCE MEMORANDUM

The India-Pakistan Situation
(Report #92 - As of 11:00 A.M. EDT) 25X6

[redacted]

2. The US Embassy in New Delhi reports the impression that the UN operation in the subcontinent is still wobbly, uncertain, and ineffective. It says strong and creative leadership by General MacDonald and his UN India-Pakistan Observer Mission is urgently needed at the point of conflict, since Indian politicians and civil servants seem to be poorly informed about what is going on and somewhat baffled as to how to proceed in dealing with the situation. The Embassy suggests that General MacDonald meet with the Indian and Pakistani army commanders and request them to pull their troops back one-half mile from their present positions within 24 hours. Compliance or non-compliance would be reported promptly to the UN Secretary General and made public.

State Department review completed

3. Reuters reports from New Delhi that on 2 October about 25 Chinese Communist troops crossed into Sikkim at the Yakla Pass (27-20N, 88-45E) near the southern end of the Chumbi valley and fired on an observation post well inside Indian territory. The three Indians in the post returned the fire. No further information is available.
